

thenex and CBI

Together with CBI, we provide all-round support for fans. We offer a simple, cost-effective way to improve system performance and functionality. In addition, we supply and install original spare parts and offer a construction of spare parts for rotary machinery which are no longer in production.

ABOUT CBI

Founded in 1963, the CBI Group is one of the leading European manufacturers of industrial fans. Within this group, CBI Engineering & Service specializes in maintenance of industrial fans in general, and the design of spare parts and custom technical solutions to restore them to good working condition.
