

WORLDWIDE INDUSTRIAL SERVICES SINCE 1900

Complete Solutions in High Quality Pipeline Products

thenex® Industrial Pipeline Solutions

thenex® is an experienced partner in the field of pipeline and plant construction guaranteeing top quality pipeline products. Based on excellent communication and timely interaction, thenex® customers have always a clear view and control over their enquiries and orders.

thenex® procures worldwide requirements of engineering companies and end users in oil & gas, chemical & petrochemical and power industries.

Pipes & Piping Components - Stocks & Tailor-made

Tubes – pipes – fittings – pipe bends – flanges – valves – bolting – gaskets – flat and bar products.

Custom-made pipefittings – special tees – constructed headers and manifolds – insulating joints – pig launches and receivers – and other pipeline products.

Urgent Needs

Fast & efficient reaction – Exact solutions –
Matching proposals – Reliability – Short track.

Packages

Project management – Complete range of products –
Different grades, shapes & conditions – Stock flexibility.

Services made in Germany – Services made by thenex®

Competent consultation – Perfect co-ordination of customized logistics – Know-how in international contractual law, liability and warranty regulations – Simple financing solution – Highest security standards according to AEO-F requirements – Efficient network – Shortest procurement periods at optimized cost-performance ratio – and more.

WORLDWIDE INDUSTRIAL SERVICES SINCE 1900

We supply quality products „Made in Europe“!

PIPES

Types: Line & process pipes – Casings, tubings & drill pipe – Heat exchanger tubes – U-tubes – Pilings

FITTINGS

Types: Elbows LR, SR – Equal & reducing tees – Lateral, Y-pieces, scraper & sphere tees – Conc. & ecc. Reducers caps – Forged fittings 3000#, 6000# & 9000# - O-lets – Pipe & swage nipples

FLANGES

Types: Welding Neck – Long Welding Neck – Slip-On – Blind – Socket Weld – Threaded – Orifice – Spectacle Blinds – Spades & Spacers

VALVES

Types: Gate, globe & check – Ball valves (trunnion mounted & floating ball) – Safety relief & control valves – Butterfly – Strainers

PLATE & SECTIONS

Types: Plates – Angels (equal & unequal flanged beams) IPE / IPN, UPE / UPN. HEA / HEB and others – Round, square & flat bar – Square & rectangular pipes

MISCELLANEOUS

Supplementary items: Fasteners – Gaskets – Pipe repair – Instrumentation – Plastics – Custom made items

VARIOUS MATERIAL GRADES: such as carbon steel, high strength carbon steels, alloyed carbon steel, stainless steel, heat & seawater resisting steel, nickel based and non-ferrous materials and more.

MANUFACTURING STANDARDS: ASTM /ASME, DIN, ISO / EN, API, BS, AFNOR, GHOST.

QUALITY CHECK & CERTIFICATES: such as EN 10204/3.1.; EN 10204/3.2.
